Issue: Distressed Community Criteria 2007 Update

Date: October 2007

Background:

The Alaska Department of Labor and Workforce Development, Research and Analysis Section has completed an update of the distressed community list using the most current information available. Attached is a list of Alaska communities with employment and earnings information used to determine their distressed community status for 2007. Maps by economic region that show locations of communities that meet the distressed criteria are also included.

Surrogate Standard Background

The Denali Commission adopted alternate methods of determining community eligibility when census data were not available for the 2000 update. That “surrogate” standard considered additional data and methodology. For this 2007 update, we compiled the data required to implement a “surrogate” standard to determine eligibility.

Data Sources

Three sources of data are used for the 2007 update:

- 2006 Permanent Fund Dividend applications (PFD) - includes applicant’s age, social security number (SSN), and zip code.
- Alaska UI wage records for calendar year 2006. This information includes wage and salary worker earnings from all private, state and local government employers. Federal government, military, and self-employed earnings are not included.
- Calendar year 2005 Commercial Fisheries Entry Commissions (CFEC) - total fish value for each community.

All 2006 PFD applicants age 16 and over in 2006 were assigned to an Alaska borough/census area and community by zip code of place of residence. In some rural parts of Alaska, several communities utilize the same zip code. Residents of communities sharing a zip code are generally grouped together in this report unless physical place of residence information provides accurate community data. For example, zip code data cannot differentiate Atmautluak and Kongiganak because they receive mail through the Bethel zip code. Therefore, Bethel’s 2007 distressed/non-distressed determination will be used for those communities.

PFD applicants age 16 and over were matched with wage and employment information by SSN. Wage and salary earnings were added to CFEC 2005 total fish values to compute community average market income.

2007 Update Surrogate Standard

A community that meets two of the following three surrogate standard criteria is considered distressed:

Criteria 1 Average market income in 2006 is less than \$14,872.

$$\text{Average market income} = \frac{\text{Community UI Earnings} + \text{Community CFEC Earnings}}{\text{Number Residents 16 and Over}}$$

$$\$14,872 = \text{Minimum Wage } (\$7.15/\text{hour} \times 2,080 \text{ hours/year})$$

Any community with an average market income of less than \$14,872 in 2006 meets this criteria.

Criteria 2 More than 70% of residents 16 and over earned less than \$14,872 in 2006.

$$\text{Percent Residents w/Erngs } < \text{than } \$14,872 = \frac{100 \times \text{Number Residents w/Erngs } < \text{than } \$14,872}{\text{Number Residents 16 and Over}}$$

Any community with more than 70% of its residents earning less than \$14,872 in 2006 meets this criteria.

Criteria 3 Less than 30% of residents 16 and over worked all four quarters of 2006.

$$\text{Percent Residents Employed All 4 Qtrs} = \frac{100 \times \text{Number Residents Employed All 4 Qtrs}}{\text{Number Residents 16 and Over}}$$

Any community with less than 30% of its residents employed all four quarters of 2006 meets this criteria.

Notes:

- **Fort Wainwright and Fort Greely** are military bases and are included because they have unique zip codes.
- **Juneau - Rural** (zip code 99850) includes Cube Cove, Excursion Inlet, and Funter Bay
- **Ketchikan - Rural** (zip code 99950) includes Neets Bay, Naukati Bay, Port Protection, Edna Bay, Whale Pass, and part of Kasaan.
- Data were either incomplete or not available for some communities. These include Eielson AFB, US Coast Guard stations at Attu Station and Port Clarence, and Kenaitze (ANVSA).
- Following the distressed and non-distressed lists of communities is a third list of communities that are non-distressed by 2007 surrogate standards, but are distressed when a plus/minus 3% formula is applied to the data.

Appeals

The Denali Commission recognizes that in some cases the data collection and application methodology does not accurately reflect the appropriate classification of some communities. Therefore, the Commission is open to reviewing a community's classification as "non-distressed." Any community that believes a "non-distressed" classification was determined in error may appeal to the Denali Commission.

Appeals determinations will be made in lieu of new information (relevant economic data and facts) which demonstrate the data compiled by the DOL&WD was erroneous, invalid, or outdated. Additionally, the Commission will take into consideration the past economic status of a community as determined by the Denali Commission's annual Distressed Community Criteria lists dating back to 2002. Past economic statuses will not, however, be the single determining factor for successful appeals. They will be considered in addition to the new information provided. New information must come from a verifiable source and be robust and representative of the entire community and/or population.

In addition to demonstrating the data compiled by the DOL&WD was erroneous, invalid, or outdated, the new information must demonstrate a community does meet at least two of the three Surrogate Standard criteria as defined above for classification as a distressed community.

Appeals must be sent in writing to the attention of the Denali Commission Director of Programs who will make an appeal determination based on the new verifiable information presented and will provide a response in writing within 30 days.

Send appeals to:

*Denali Commission
Attention: Director of Programs
510 L Street, Suite 410
Anchorage, AK 99501*

**The last section of the "Communities that meet 2007 Distressed Criteria" below contains the names of communities which have successfully appealed their status as "non-distressed" and received a "distressed" classification from the Commission.*

Distressed Communities as Defined by 2007 Surrogate Standard

The following is a list of communities that meet the surrogate standard for distressed communities.

Communities that meet 2007 Distressed Criteria

AKIACHAK
AKIAK
ALAKANUK
ALATNA - see ALLAKAKET
ALCAN BORDER - see NORTHWAY
ALEXANDER CREEK
ALLAKAKET
ANCHOR POINT
ANDERSON
ANGOON
ANVIK
ARCTIC VILLAGE
ATMAUTLUAK - see BETHEL
BEAVER
BELUGA - see ALEXANDER CREEK

Communities that meet 2007 Distressed Criteria (continued)

BILL MOORE'S - see KOTLIK
BREVIG MISSION
CENTRAL
CHALKYITSIK

***3% Criteria**

- Average earnings in 2006 from UI covered employment and fishing less than \$14,872 x 1.03 = \$15,318 (change from \$14,872)
- The percentage of residents 16 and over with 2006 earnings less than minimum wage of \$14,872 greater than 67% (change from 70%)
- The percentage of residents 16 and over employed in all four quarters of 2006 is less than 33% (change from 30%)

Communities	2007 Distressed Status	2006 Distressed Status	Average earnings in 2006 from UI employment and fishing	% w/ 2006 earnings less than minimum wage of \$14,872	% Employed all four quarters of 2006	Met two of three criteria	Not distressed in 2007 but is with 3% formula
