**COOPERATIVE PROJECT AGREEMENT  
HEALTH FACILITY IMPROVEMENT PROJECT  
VILLAGE OF KOLIGANEK, ALASKA**

**PROJECT NO. AN 06-GG7**

---

**DATE OF AGREEMENT:**  
August 2006

**A. INTRODUCTION**

Throughout this Cooperative Project Agreement (CPA) the following entities are referred to as follows:

Village of Koliganek	=	Village
Bristol Bay Area Health Corporation	=	BBAHC
Alaska Native Tribal Health Consortium	=	ANTHC
Division of Environmental Health and Engineering	=	DEHE
Rasmuson Foundation	=	Rasmuson Foundation
Alaska Mental Health Trust Authority	=	AMHTA
Indian Health Service	=	IHS
Denali Commission	=	Commission

The ANTHC, DEHE, role is to provide lasting solutions to promote healthy communities.

This CPA contains information about the project scope of work, funding, costs, and administration, and is being performed under the provisions of the following agreements:

- Memorandum of Understanding Between the Denali Commission and the Alaska Native Tribal Health Consortium, dated June 2006. This MOU defines the roles and responsibilities of each party.
- Denali Commission Financial Assistance Award Project No. 220-06, dated July 2006.

**B. SCOPE OF PROJECT**

This project will construct a new health clinic in the Village of Koliganek, Alaska. Project activities include site preparation, materials and equipment, construction, and labor.

### C. PROJECT COST

#### C 1. Cost Estimate Table

Job Type	Scope of Work	Qty	Units	Unit Cost	Total Cost	Funding Sources			
						Matching Funds			Denali FY06
						Rasmussen	IHS FY06	AMHTA	
M-CL	Construct new clinic	1	LS	2,068,313	2,068,313	361,341	149,575	37,000	1,520,397
Total Award				\$2,068,313	\$361,341	\$149,575	\$37,000	\$1,520,397	

#### C 2. Project Funding

Contributor	Fiscal Year	Description	Amount
Rasmussen	NA	NA	\$ 361,341
IHS	Federal 2006	NA	\$ 149,575
AMHTA	NA	NA	\$ 37,000
Denali Commission	Federal 2006	NA	\$ 1,520,397
TOTAL PROJECT FUNDING			\$ 2,068,313

By signing this Agreement, the Village of Koliganek agrees its matching Rasmussen Foundation and AMHTA funds shall be transferred to ANTHC and used for the project. Likewise, BBAHC agrees its matching IHS Tribal Equipment and AMHTA funds shall be transferred to ANTHC and used for the project. If these matching funds are not made available, project activities will be curtailed.

### D. PROJECT ADMINISTRATION

The following project management methodology has been selected by the Village:

Construction management shall be accomplished by ANTHC or its Contractor. ANTHC shall take responsibility for all project oversight, technical assistance, and management of the construction process. Project construction shall be through ANTHC force account.

Construction activities are expected to begin by August 2006 and be finished by July 2007.

This Agreement shall take effect upon signature by all parties and remain in effect until project completion or until subsequently amended.

#### E. SUSTAINED OPERATIONS CONSIDERATIONS

The Village will assume the ownership and maintenance of the facility provided by this project, with the exception of medical equipment. BBAHC will operate the services and own and maintain medical equipment provided by this project.

#### F. NATIONAL HISTORIC PRESERVATION ACT REQUIREMENTS

The National Historic Preservation Act (NHPA) provides for cultural resources identification and protection through avoidance or mitigation to avoid unnecessary disturbance of reported or known human burials. NHPA also requires tribes to be consulting parties if archeological discoveries are made during construction.

The Native American Graves Protection and Repatriation Act (NAGPRA) contains stipulations regarding the appropriate treatment and disposition of human burials, funerary, and associated items discovered on Federal lands or Indian Allotments. NAGPRA recognizes the inherent rights and claims of the Native people but often is inapplicable to ANTHC projects. For this reason, as a policy ANTHC recognizes the inherent rights and claims of the tribal entity when human remains and associated items are uncovered through construction projects.

Therefore, if construction for this project results in the discovery of ancient cultural items (i.e., human burials, associated items, and/or archaeological artifacts), ANTHC will ensure that the New Koliganek Village Council will be a consulting party. In addition, the following responsibilities are assumed by the project participant in order to comply with NHPA, NAGPRA, and ANTHC policy recognizing inherent rights and claims:

- Identifying any known or reported archaeological site, artifact, or ancient human remains to avoid unnecessary damage to sensitive resources.
- Delaying construction in the vicinity of a discovery until procedures in conformance with 36 CFR 800 are complete.
- Determining appropriate mitigation measures and performing all mitigation in conformance with 36 CFR 800.
- Ensuring an archaeologist, retained or employed by any party to facilitate construction operations, will view and document any and all cultural items discovered during excavation if an adverse effect determination has been made.
- Ensuring that if removal of ancient human remains is necessary, the archaeologist will remove the entire body and that unless the New Koliganek Village Council requests further study of the remains, tests upon or photographs of any ancient human remains will not occur unless specific, separate Agreements have been made with the New Koliganek Village Council.

- Contacting the Village Public Safety Officer if a modern human burial is discovered to determine if a criminal act can be identified. If the burial is from an archaeological context, the burial will be treated as archaeological remains and need not be treated as a scene of crime.
- Acknowledging that the New Koliganek Village Council assumes full responsibility for any and all cultural items discovered during excavation on all but private lands.
- Acknowledging that the New Koliganek Village Council reserves the inherent right to determine the appropriate disposition of any and all cultural items discovered during excavation on all but private lands.
- Acknowledging that the inherent claims or rights of the New Koliganek Village Council are not diminished by the fact that the land is under ownership by another party.
- Ensuring that if a discovery is made on Federal lands, Indian Allotment lands, or lands not yet conveyed to the Village or Regional Corporation, parties to facility construction operations shall comply with NAGPRA if appropriate.
- Acknowledging that all other inherent rights and claims regarding any and all cultural items discovered on any lands other than private lands during excavation for or in support of facility construction not expressly covered in these responsibilities are reserved to the New Koliganek Village Council alone.

#### G. AUTHORITY FOR APPROVAL

Upon signing this document, the ANTHC Chief Executive Officer delegates authority to sign all subsequent agreements related to this project to the Director of Regional Facilities Services, DEHE.

#### H. PROVISIONS FOR PROJECT COMPLETION

The following sections from the ANTHC, DEHE, Cooperative Project Agreement Provisions Manual for Health Facilities Projects (Orange Book), dated June 2003, are incorporated into this Agreement by reference. For the purposes of this Agreement, all references to "Local Participant" shall mean the Village of Koliganek.

- Section 1, "Provisions for All Cooperative Project Agreements"
- Section 2, "Provisions for ANTHC Management of Local Force Account Labor"
- Section 5, "Insurance and Indemnification Provisions for Force Account Labor Projects Managed by ANTHC or the Local Participant"
- Section 6, "Assurances for All Construction Programs" (Standard Form 424D)

The following federal provisions apply to this project:

- 15 CFR 24, Uniform Admin Requirements for Grants/Cooperative Agreements to State and Local Governments  
[<www.access.gpo.gov/nara/cfr/waisidx\\_99/15cfi24\\_99.html>](http://www.access.gpo.gov/nara/cfr/waisidx_99/15cfi24_99.html)  
(applies to local or tribal government)
- OMB Circular A-87, Cost Principles for State and Local Governments and Indian Tribal Governments [<www.whitehouse.gov/OMB/circulars/a087/a087-all.html>](http://www.whitehouse.gov/OMB/circulars/a087/a087-all.html)  
(applies to local or tribal government)
- OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations [<www.whitehouse.gov/OMB/circulars/a133/a133.html>](http://www.whitehouse.gov/OMB/circulars/a133/a133.html)  
(applies to all Agreements)
- 15 CFR, Part 14, Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, Other Nonprofit, and Commercial Organizations

ANTHC Final Environmental Review Memorandum  
ANTHC Environmental Review and Documentation  
Denali Commission Environmental Determination Letter

**ALASKA NATIVE TRIBAL HEALTH CONSORTIUM**  
Division of Environmental Health & Engineering  
1901 Bragaw, Suite 200  
Anchorage, Alaska 99508-3440

## MEMORANDUM

DATE: August 2006  
FROM: Heritage and Environmental Consultant  
SUBJECT: Village of Koliganek, Final Environmental Review  
Project No. AN 06-GG7  
TO: FOR THE RECORD

Based upon the scope for this project, an environmental review in accordance with the National Environmental Policy Act (NEPA) and the National Historic Preservation Act (NHPA) has been completed. The Alaska Native Tribal Health Consortium (ANTHC) has considered all potential environmental concerns (specific and cumulative effects) associated with the project in consultation with applicable federal, state, and local authorities. The Environmental Review Report has been completed and reviewed with respect to the proposed health facilities construction and is attached to this Memorandum.

### FINDINGS

This environmental review finds that no further environmental investigation is necessary. All actions involving construction have been reviewed and no extraordinary or exceptional circumstances were found to exist. It is therefore recommended that the Denali Commission approves a determination of eligibility for categorical exclusion from the requirement to conduct further environmental evaluation for this project. Current IHS policy (Federal Register, Vol. 58, No. 3, January 6, 1993, pp. 569-572) allows for categorical exclusion of health and sanitation facility projects that do not have a significant impact on the environment, as determined by the attached "Environmental Review and Documentation."

### BACKGROUND

Koliganek is located on the left bank of the Nushagak River, and lies 65 miles northeast of Dillingham. The village hopes to get its own zip code. It currently shares one with Dillingham. It lies at approximately 59.728610° North Latitude and -157.28444° West Longitude. (Sec. 21, T005S, R047W, Seward Meridian.)

### ENVIRONMENTAL RESOURCES OF IMPORTANCE

This project will construct a clinic in Koliganek, Alaska. The clinic will be constructed on the apron of an abandoned airstrip, on previously disturbed ground. It should be noted that a search of records and databases at the Office of History and Archaeology did not disclose the presence of a previously identified site. For these reasons, the ANTHC has determined that this project will not affect historic properties, and will seek concurrence with these findings from the State Historic Preservation Officer. There is no critical habitat identified at Koliganek to support threatened or endangered species, and there are no other environmental resources of importance identified that might sustain direct adverse effects as a result of this project construction.

### SCOPE OF WORK

This project will construct a new health clinic in the Village of Koliganek, Alaska. Project activities include site preparation, materials and equipment, construction, and labor.

### PROPOSED MITIGATION MEASURES

Given the environmental review performed by the ANTHC, no mitigation activities are proposed for this project.

### SUMMARY

In the event that the ANTHC becomes aware of any other unforeseen discovery, which could change the environmental determination, the appropriate authority will be notified to develop an acceptable course of action prior to resuming construction activities in the impacted area.

With the scope of work outlined for this project, the ANTHC has completed the environmental review. If the scope of work is changed in the future, then the ANTHC will revisit this environmental review to determine if potential environmental concerns have been addressed.

Chris Campbell

Considerations	Determination (Yes or No)	Basis for Determination (Documentation)
1. Will the proposed action result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or local) laws or requirements for protection of environment or public health and safety?	No	The construction of the health clinic project in Koliganek, Alaska will be in compliance with all applicable laws and requirements and will have the appropriate regulatory approvals.
2. Will the proposed action result in a conflict with existing or proposed federal, Tribal, state, and local land use plans?	No	Printed Materials – The project site is not zoned. The Koliganek, Alaska Village Traditional Council has identified this project as an essential community facility.
3. Is there a controversy with respect to environmental effects of the proposed action based on reasonable and substantial issues?	No	Printed Materials – The CPA for this project, which is signed, afforded the Village the opportunity to address controversies with respect to environmental effects of the construction of the health clinic project.
4. Is the proposed action significantly greater in scope than normal for the area or does it have significant unusual characteristics?	No	Reviewer's Experience – The construction of the health clinic project in Koliganek, Alaska is typical in scope in comparison with other ANTHC sanitation improvement projects in rural Alaska and has no unusual, significant characteristics.
5. Does the proposed action establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?	No	Reviewer's Experience – The construction of the health clinic project in Koliganek, Alaska is not anticipated to result in any cumulative impacts that will result in degradation of environmental concerns as outlined in NEPA.

Considerations	Determination (Yes or No)	Basis for Determination (Documentation)
6. Does the proposed action have significant adverse direct or indirect effects on park land, other public lands, or areas of recognized scenic or recreational value? (For example, consider the how your activity will affect the view?)	No	<p>Printed Materials – Alaska Wildlife Refugees, U.S. Fish and Wildlife Service.</p> <p>The community of Koliganek, Alaska is not located in the vicinity of parklands, other public lands, or areas of recognized scenic or recreational value.</p>
7. Does the proposed action include construction of a new municipal solid waste landfill at a new solid waste disposal site?	No	<p>This project does not address the need for constructing a new municipal solid waste landfill.</p>
8. Will the proposed action create a need for additional capacity at solid waste disposal facilities?	No	<p>Printed materials – The proposed project in will not generate any additional solid waste than the existing facility because it will not affect community population levels.</p>
9. Does the proposed action include construction of a new wastewater treatment facility that will discharge treated sewage effluent?	No	<p>This project does not address the need for constructing a new wastewater treatment facility that will discharge treated surface effluent into surface waters.</p>
10. Will the proposed action create a need for additional capacity at wastewater treatment facilities?	No	<p>Printed materials – The construction of the health clinic project in Koliganek, Alaska, will not affect the capacity of the community's wastewater treatment facilities.</p>
11. Will the proposed action create a need for additional capacity in the drinking water supply?	No	<p>Printed materials – The construction of the health clinic project will not create a need for additional drinking water supply as the same population will continue to be served as previously.</p>

VILLAGE OF KOLIGANEK, ENVIRONMENTAL INFORMATION AND DOCUMENTATION  
PROJECT NO. AN 06-GG7

PAGE 3  
AUGUST 2006

Considerations	Determination (Yes or No)	Basis for Determination (Documentation)
12. Are there other considerations about the proposed action that could adversely affect the environment and/or public health and safety?	No	Printed materials – The construction of the health clinic project in Koliganek, Alaska is not anticipated to adversely affect the environment and/or public health and safety. No toxic building materials will be utilized.
13. Will the proposed action create a need for additional capacity in health care facilities and for health care services?	No	Printed Materials – The construction of the health clinic project is not anticipated to create a need for additional capacity in health care facilities and for health care services because it will not affect community population levels.
14. Will the proposed action create a need for additional energy supply or generation?	No	The construction of the health clinic project will not create a need for additional energy supply or generation. .
15. Will the proposed action create a need for additional capacity in educational facilities?	No	Printed materials- The construction of the health clinic project at Koliganek, Alaska will not affect any need for additional capacity in educational facilities because the same population will be serve as previously.
16. Will the proposed action create a need for additional capacity in transportation systems?	No	Printed materials – The construction of the health clinic project in Koliganek, Alaska will serve the same population in a community lacking a transportation system.
17. <u>Historic Preservation:</u>	No	Reviewer's Experience - All work will occur in previously disturbed ground or in an area of low potential, therefore this project has no potential to affect historic properties on or eligible for the National Register of Historic Places. The State Historic Preservation Officer will be provided with a timely opportunity to review these findings for concurrence.
a. Does the proposed action involve the purchase, construction, alteration, renovation, or lease of a building or portion of a building that is more than 50 years old?		

VILLAGE OF KOLIGANEK, ENVIRONMENTAL INFORMATION AND DOCUMENTATION  
PROJECT NO. AN 06-GG7

PAGE 4  
AUGUST 2006

Considerations	Determination (Yes or No)	Basis for Determination (Documentation)
b. Will the proposed action adversely affect properties listed, or eligible for listing, on the National Register of Historic Places? (buildings, archaeological sites; objects of significance to a Tribe including graves, funerary objects, and traditional cultural properties)	No	<p>No historic properties eligible or on the National Register of Historic Places will be adversely impacted by the construction of the health clinic project in Koliganek, Alaska. The State Historic Preservation Officer will be provided with a timely opportunity to review these findings for concurrence.</p>
18. Endangered Species Act: Is the proposed action likely to adversely affect a plant or animal species listed on the Federal or applicable state list of endangered or threatened species or a specific critical habitat of an endangered or threatened species? (Consult with Fish & Wildlife Service or NOAA Fisheries Service.)	No	<p>Printed Materials – Endangered, Threatened and Candidate Species in Alaska, U.S. Fish and Wildlife Service, December 2000.</p> <p>This project will not be taking place in the vicinity of a critical habitat of an endangered species.</p>
19. Will the proposed action require major sedimentation and erosion control measures? (Consider earth disturbing activities including construction or expansion of a parking lot.)	No	This project will not require major sedimentation and erosion control measures.

Considerations	Determination (Yes or No)	Basis for Determination (Documentation)
20. Will the proposed action violate the applicable storm water permit or NPDES permit? (Earth disturbing activities may require permits from the EPA or other agency and a storm water control plan, including parking lot construction activities. Contact tribal, local or state authorities, or EPA.)	No	An NPDES permit is not required.
21. <u>Safe Drinking Water Act:</u> Will the proposed action impact an EPA designated sole source aquifer? (Designation of sole source aquifer puts restrictions and conditions on federal expenditures, projects, and grants.)	No	<p>Personal Contact – Letter on file from Michael Crotteau, Alaska Department of Environmental Conservation, August 1999.</p> <p>There are no designated sole source aquifers in Alaska.</p>
22. <u>Wetlands and Water Resources</u> (lakes, rivers, ponds, streams, etc.): Will the proposed action affect wetlands and water resources, except in compliance with the applicable permit; e.g., Section 404 (Clean Water Act) and Section 10 (Rivers and Harbors Act) permits? (Activities in or near a wetland may require a permit from the U.S. Corps of Engineers. Includes: construction in or near any wet or dry waterway, stream crossings, intake structures, outfalls, etc.)	No	A U.S. Army Corps of Engineers permit is not required for this project.

VILLAGE OF KOLIGANEK, ENVIRONMENTAL INFORMATION AND DOCUMENTATION  
PROJECT NO. AN 06-GG7

PAGE 6  
AUGUST 2006

Considerations	Determination (Yes or No)	Basis for Determination (Documentation)
23. <u>Floodplains:</u> Will the proposed action endanger people who occupy the property, involve purchase, construction, or lease of a facility in a floodplain, or encourage floodplain development? (May be applicable to construction in or near any wet or dry waterway, stream crossings, intake structures, outfalls, etc.) (Consider if the facility will require flood insurance coverage.)	No	Reviewer's Experience – The construction of the health clinic projectin Koliganek, Alaska is not in a floodplain.
24. Does this proposed action involve the purchase, construction or lease of a building(s) which will total more than 1080 square meters (12,000 square feet)? (Include portable and modular facilities and trailers.) (Federal Register, Vol.58, No. 3, I 4(a))	No	Printed Materials- The proposed health facility in Koliganek, Alaska will total 2,500 Square feet.
25. Does this proposed action involve the purchase, construction or lease of building(s) on more than 2 hectares (5 acres) of land? (Federal Register, Vol.58, No. 3, I 4(b))	No	Printed Materials – Less than 2 hectares (5 acres) will be involved in the proposed Koliganek, Alaska health facility.

VILLAGE OF KOLIGANEK, ENVIRONMENTAL INFORMATION AND DOCUMENTATION  
PROJECT NO. AN 06-GG7

PAGE 7  
AUGUST 2006

Considerations	Determination (Yes or No)	Basis for Determination (Documentation)
26. Does the proposed action involve the sale or transfer of real property, on which any hazardous substance or any petroleum product or its derivatives (including aviation fuel and motor oil) was stored for one year or more, known to have been released, or disposed of? (Document substance, dates, times, and response actions, if any. Also, include underground storage tank (UST) and above ground storage tank systems.)	No	Personal Contact – Based on Project Engineer consultation with the local authorities, specifically the Tribal Entity and the City real property associated with the health clinic project in Koliganek, Alaska has not been associated with the use, transfer, or lease as storage for hazardous waste for more than one year. If hazardous waste/or petroleum products or their derivatives are uncovered through the course of construction, the Project Engineer will contact the Alaska Department of Environmental Conservation and follow their recommendations to ensure full legal compliance.
27. Will the proposed action violate Tribal, local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that generate those items include air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, medical centers, etc. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	No	Printed Materials- The proposed project in Koliganek, Alaska does not violate local, state, or federal law on the use and storage of hazardous substances or transportation, storage and disposal of hazardous wastes or medical wastes.

VILLAGE OF KOLIGANEK, ENVIRONMENTAL INFORMATION AND DOCUMENTATION  
PROJECT NO. AN 06-GG7

PAGE 8  
AUGUST 2006

Considerations	Determination (Yes or No)	Basis for Determination (Documentation)
28. Will the proposed action adversely affect community air pollution for a long period of time? (Consider if your activity must conform to an applicable air quality implementation plan.)	No	<p>Printed Materials – 18AAC50, Air Quality Control, Alaska Department of Environmental Conservation, December 30, 2000.</p> <p>This project will not result in a violation of the conformity rule per the State of Alaska Implementation Plan.</p>
29. If the proposed action is implemented, will it have a disproportionately high and adverse human health or environmental impact on the Tribe, low-income populations, or minority populations?	No	<p>This project will benefit the health and environment for the tribe and the community as a whole.</p>
30. Will the proposed action adversely affect community noise levels?	No	<p>Printed Material – This project will not affect community noise levels because no blasting will occur and heavy equipment use will be limited to the daytime.</p>
31. <u>Wilderness Act:</u> Will the proposed action adversely impact a Wilderness Area? (Wilderness Areas are specifically designated areas of land.)	No	<p>Printed Materials – USGS State of Alaska Map E.</p> <p>There are no communities located in wilderness areas in Alaska.</p>
32. <u>Farmland Protection Policy Act:</u> Will the proposed action convert significant agricultural lands to non-agricultural uses and exceed 160-point score on the farmland impact rating?	No	<p>Personal Contact – Letter on file from Steve Tickett, Alaska Department of Natural Resources, July 1999.</p> <p>The community of Koliganek, Alaska is not located within an identified significant agricultural area.</p>

PROJECT NO. AN 06-GG7

PAGE 9  
AUGUST 2006

Considerations	Determination (Yes or No)	Basis for Determination (Documentation)
33. <u>Coastal Zone Management Act:</u> Will the proposed action directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan? (All federal programs or projects in the coastal zone must comply with the consistency provisions of the Act. Each coastal state should have a state office to manage its coastal zone development and use. On Federal or Tribal trust land, the IHS will make the determination.)	No	<p>Printed Materials – Alaska Coastal Zone and Coastal District boundaries, National Oceanic and Atmospheric Administration, December 2000.</p> <p>The community of Koliganek, Alaska is located within the Lake and Peninsula Borough Coastal Zone area therefore a coastal zone questionnaire will be submitted to the State of Alaska Department of Natural Resources.</p>
34. <u>Wild and Scenic Rivers Act:</u> Will the proposed action affect a wild, scenic, or recreational river area or create conditions inconsistent with the character of the river? (A consideration for activities that are in or near any wild and scenic waterway including construction of stream/river crossings, intake structures, outfalls, etc.)	No	<p>Printed Materials – Wild and Scenic Rivers (Alaska) List, National Wild and Scenic Rivers System, National Parks Service.</p> <p>This project is not a “Water Resource Project” that will impact a wild, scenic, or recreational river, hence will not create conditions that are inconsistent with the character of the river.</p>

I certify that to the best of my knowledge and ability the information presented above is true and correct.

Dear Ms. Bittner:

Re: Construction of a New Health Clinic - AN 06-GG7 - DIL C4 - Koliganek

The Alaska Native Tribal Health Consortium (ANTHC) has as its mission to create safe and healthy communities through shared decision making with the people it serves. The community of Koliganek, Alaska is receiving funds from the Denali Commission through the ANTHC to construct a new clinic. The clinic will be constructed on the apron of an abandoned airstrip, in previously disturbed ground. It should also be noted that a search of records and data bases at the Office of History and Archaeology did not disclose the presence of a previously identified site.

Koliganek can be found on USGS quadrangle map DIL C4 TSS R47W UM. A copy of the USGS map and a site plan are included to facilitate your review.

The ANTHC has determined that this project will have no effect on historic properties. We are seeking your concurrence with this finding.

If you need additional assistance or clarification, please do not hesitate to contact me at 729-3798, [CCampbel@anthc.org](mailto:CCampbel@anthc.org).

Sincerely,

*Chris Campbell*

Dear Mr. Reitz:

RE: Koliganek Environmental Determination

This letter is written by the Denali Commission (Commission) to indicate to the Alaska Native Tribal Health Consortium (ANTHC) that the course of action outlined in the environmental memoranda (attached) is appropriate for the Koliganek clinic project.

Please contact Ms. Denali Daniels of my staff, ddaniels@denali.gov, 271.1189, with any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Tessa L. D. Rinner".

Tessa L. D. Rinner, MPA  
Director of Programs
